INCITING INCIDENT

Simply Survival

Stealing was a matter of survival for you and not what defined you – at least in your mind. But when your thieving actions lead to innocent folk being harmed, you knew you could be better. You turned your back on your old life, though your old skills come in handy.

COMPLICATION

Truer Self

DESCRIPTION

Your stormwight form resembles an immense beast with a gnoll's demonic face—and a gnollish lust for blood. When you or a creature within 5 squares of you takes damage while you are in your true form, you must either take 5 damage which can't be reduced in any way or use Aspect of the Wild as a free triggered action, adopting animal or hybrid form. Whenever you adopt your boren or hybrid form, you can't change back to your true form for 1 hour. While in animal or hybrid form, when you use an ability that reduces at least one creature to 0 Stamina, you can spend 1 Recovery.

ANCESTRY TRAITS AND PERKS

Brawny

Whenever you fail a Might test, you can lose Stamina equal to 1d6 + your level to improve the outcome of the test by one tier. You can use this perk only once per test.

Can't Take Hold

Your connection to the natural world allows you to resist certain supernatural effects. You ignore temporary difficult terrain created by magic and psionic abilities. Additionally, when you are force moved by a magic or psionic ability, you can reduce the forced movement distance by 1.

Criminal Contacts

You have access to a network of criminal contacts. As a respite activity while you take a respite in a settlement, you can ask a question of your contacts by making a Presence test. On a tier 2 outcome, you learn one piece of information that would be common among criminals—the secret entrances into a building, the location of a local criminal in hiding, the name of a local thieves' guild leader, and so forth. On a tier 3 outcome, you can instead gain knowledge that would be uncommon among criminals as long as such information exists—the location of a local treasure cache, the location of a murder weapon used in a noble's assassination, the name of an NPC secretly bankrolling a local assassin's guild, and so forth.

★ Detect the Supernatural

Maneuver

You open your awareness to detect supernatural creatures and phenomena.

- **Catch Breath:** Spend a Recovery.
- **Claw Dirt:** You use the Claw Dirt ability.

- **Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to herself or a willing adjacent creature.

DURING THE MOVE

Certain ability effects allow you to move and affect other creatures or objects during that move, such as the shadow's One Hundred Throats ability. For such abilities, the move begins in the space you first leave when you start the move and ends in the last space you move into.

NOTES

EDGES AND BANES

Edge: If you have a situational advantage (edge) on a power roll, the roll gains +2.

Double Edge: If you have two or more edges, the roll is one tier higher instead.

Bane: If you have a situational disadvantage (bane) on a power roll, the roll gains -2.

Double Bane: If you have two or more banes, the roll is one tier lower instead.

- If you have an edge and a bane or a double edge and a double bane, the roll is made normally without any edges or banes.
- If you have a double edge and a bane, the roll has one edge.
- If you have a double bane and an edge, the roll has one bane.

MOVEMENT

All squares adjacent to your character cost 1 movement to move into. No, there's no Pythagorean theorem on the grid. It's a game, don't overthink it.

Your hero can move freely through an ally's space. You can move through an enemy's space, but that space is difficult terrain. You can't stop moving in any other creature's space, including to make a strike or use a main action or maneuver while in that space and then continuing your move, unless that creature's size is two or more sizes greater or smaller than your own.

At the Director's discretion, you can be forced into the same space as another creature whose size is within 1 of yours, such as by falling down a narrow shaft with such a creature already at the bottom. When you are squeezed into the same space as another creature whose size is within 1 of yours, your ability rolls and tests take a bane.

Can't Exceed Speed: A single move or other effect can never allow a creature to move more squares than their speed, unless the effect states otherwise. For example, a creature with speed 5 might have that speed reduced to 2 by the slowed condition (see Conditions in Chapter 5: Classes). If an ally then targets them with an effect that allows them to move up to 3 squares, the creature can move only 2 squares because that's their current speed.

Can't Cut Corners: A creature can't move diagonally when doing so would involve passing through the corner of a wall or some other object that completely fills the corner between the creature's space and the space they are moving to. This rule applies only to moving past objects, not moving past other creatures.

INVISIBLE CREATURES

Invisible creatures always have concealment from other creatures. If an invisible creature isn't hidden, they can still be targeted by abilities. The test made to find a hidden creature who is invisible takes a bane.
