CLASS FEATURES

The Lists of Heaven

Your deity is aware of your growing influence, making it easier to draw their attention and power when you heal your allies. Whenever you allow another creature to spend a Recovery, you can also spend a Recovery.

Blessing of Fortunate Weather

Each time you finish a respite, you can decide the weather conditions within 100 squares. Until you finish another respite, the weather conditions you establish follow you through any mundane outdoor locations.

...(continued in reference)...

Minor Miracle

As a respite activity, you can perform a religious ritual and beseech the gods to restore a dead creature to life. You must have at least half the creature's remains, and they must have died within the last 24 hours from an effect that isn't age related. The creature's soul must be willing to return to life for the ritual to work. If they are not willing, you instinctively understand that as you start the respite activity and can cease it immediately.

...(continued in reference)...

Prayer

You can gain more piety by praying to the gods—but beware! Doing so can easily draw their ire, as the gods hate to be annoyed. Before you roll to gain piety at the start of your turn, you can pray (no action required). If you do, your roll gains the following additional effects:

DESCRIPTION

You started this Saint Socrates thing as a con, but there are times that you're not so sure. Sometimes Saint Socrates does things you don't expect—often leading to trouble down the road. Once on each of your turns during combat, you can take an extra maneuver. If you do, the Director gains one Malice.

MANEUVER

SHADOWMELD

You become an actual shadow.

Magic

Maneuver

Self

Self

Effect:

You flatten yourself into a shadow against a wall or floor you are touching, and become hidden from any creature you have cover or concealment from or who isn't observing you. While in shadow form, you have full awareness of your surroundings, and strikes against you and tests made to search for you take a bane. You can't move or be force moved, and you can't take main actions or maneuvers except to exit this form or to direct creates under your control, such as one you summon using an ability. Any ability or effect that targets more than 1 square affects you in this form only if it explicitly affects the surface you are flattened against. You can exit this form as a maneuver.

If the surface you are flattened against is destroyed, this ability ends and you take 1d6 damage that can't be reduced in any way.

MANEUVER

Effect:

The target can spend a Recovery.

Spend 1:

For each piety spent, you can choose one of the following enhancements:

- You can target one additional ally within distance.
- You can end one effect on a target that is ended by a saving throw or that ends at the end of their turn.
- A prone target can stand up.
- A target can spend 1 additional Recovery.

NOTES

CRITICAL HIT

Whenever you make an ability roll as a main action and the roll is a natural 19 or natural 20 — a total of 19 or 20 before adding your characteristic score or other modifiers — you score a critical hit. A critical hit allows you to immediately take an additional main action after resolving the power roll, whether or not it's your turn and even if you are dazed (see Conditions below).

You can't score a critical hit with an ability roll made as a maneuver or any other action type, but you can score a critical hit with a main action you use off your turn. For example, an opportunity attack made as a triggered action or a signature ability used as a free triggered action with the assistance of the tactician's Strike Now ability can be critical hits.

MANEUVERS

Any creature can take the following maneuvers, in addition to those listed in their stats:

- **Aid Attack:** Choose an adjacent enemy. The next ability power roll an ally makes against them before the start of your next turn has an edge.
- **Catch Breath:** Spend a Recovery.
- **Claw Dirt:** You use the Claw Dirt ability.
- **Escape Grab:** You use the Escape Grab ability while grabbed.
- **Grab:** You use the Grab ability.
- **Hide:** You become hidden from creatures who aren't observing you while you have cover or concealment from them.
- **Knockback:** You use the Knockback ability.
- **Make or Assist a Test:** Making or assisting a test is a maneuver in combat.
- **Search for Hidden Creatures:** Attempt to locate creatures hidden from you.
- **Stand Up:** You stand up from prone, ending that condition. Alternatively, you can use this maneuver to make an adjacent prone creature stand up.
- **Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to herself or a willing adjacent creature.

MOVEMENT

All squares adjacent to your character cost 1 movement to move into. No, there's no Pythagorean theorem on the grid. It's a game, don't overthink it.

Your hero can move freely through an ally's space. You can move through an enemy's space, but that space is difficult terrain. You can't stop moving in any other creature's space, including to make a strike or use a main action or maneuver while in that space and then continuing your move, unless that creature's size is two or more sizes greater or smaller than your own.

At the Director's discretion, you can be forced into the same space as another creature whose size is within 1 of yours, such as by falling down a narrow shaft with such a creature already at the bottom. When you are squeezed into the same space as another creature whose size is within 1 of yours, your ability rolls and tests take a bane.

Can't Exceed Speed: A single move or other effect can never allow a creature to move more squares than their speed, unless the effect states otherwise. For example, a creature with speed 5 might have that speed reduced to 2 by the slowed condition (see Conditions in Chapter 5: Classes). If an ally then targets them with an effect that allows them to move up to 3 squares, the creature can move only 2 squares because that's their current speed.

Can't Cut Corners: A creature can't move diagonally when doing so would involve passing through the corner of a wall or some other object that completely fills the corner between the creature's space and the space they are moving to. This rule applies only to moving past objects, not moving past other creatures.

SLAMMING INTO OBJECTS

When a creature force moves a target into a stationary object that is the target's size or larger and the object doesn't break (see below), the movement ends and the target takes 2 damage plus 1 damage for each square remaining in their forced movement.

If you force move a creature downward into an object that doesn't break (including the ground), they also take falling damage as if they had fallen the distance force moved and their Agility score was 0.

Hurling through objects: When you move a creature into a mundane object, the object can break depending on how many squares of forced movement remain. The cost of being slammed into an object is tied to the damage a target takes for being hurled through it:

- It costs 1 remaining square of forced movement to destroy 1 square of glass. The creature moved takes 3 damage.
- It costs 3 remaining squares of forced movement to destroy 1 square of wood. The creature moved takes 5 damage.
- It costs 6 remaining squares of forced movement to destroy 1 square of stone. The creature moved takes 8 damage.
- It costs 9 remaining squares of forced movement to destroy 1 square of metal. The creature moved takes 11 damage.

If any forced movement remains after the object is destroyed, you can continue to move the creature who destroyed the object.

TITLES

WHAT DO YOU THINK, SAINT SOCRATES?

What Do You Think, Saint Socrates?

"The Socratic Method is where we ask Saint Socrates what to do and he tells us."

Prerequisite: You convinced an NPC that your puppet is alive.

Effect: The first time each game session that an NPC talks directly to your hand puppet, you gain a hero token. Once during any conversation or negotiation when you use a skill from the Interpersonal skill group you can have Saint Socrates speak instead, gaining an extra edge on the roll.

Minor Miracle

As a respite activity, you can perform a religious ritual and beseech the gods to restore a dead creature to life. You must have at least half the creature's remains, and they must have died within the last 24 hours from an effect that isn't age related. The creature's soul must be willing to return to life for the ritual to work. If they are not willing, you instinctively understand that as you start the respite activity and can cease it immediately.

A creature with a willing soul returns to life at the end of the respite with full Stamina and half their Recoveries. You regain only half your Recoveries at the end of the respite.

Blessing of Fortunate Weather

Each time you finish a respite, you can decide the weather conditions within 100 squares. Until you finish another respite, the weather conditions you establish follow you through any mundane outdoor locations.

Choose one of the following types of weather, each of which grants a benefit to you and your allies:

- **Clear:** You and your allies gain an edge on tests that use the Search or Navigate skills.
- **Foggy:** You and your allies gain an edge on tests that use the Hide skill.
- **Overcast:** You and your allies gain an edge on tests that use the Endurance skill.
- **Precipitation:** When the ground is muddy or snowy, you and your allies gain an edge on tests that use the Track skill.

If you are in the same area as a creature using this or a similar feature who has chosen a different weather effect, the features negate each other where their areas overlap.

Prayer

You can gain more piety by praying to the gods—but beware! Doing so can easily draw their ire, as the gods hate to be annoyed. Before you roll to gain piety at the start of your turn, you can pray (no action required). If you do, your roll gains the following additional effects:

- If the roll is a 1, you gain 1 additional piety but anger the gods! You take psychic damage equal to 1d6 + your level, which can't be reduced in any way.
- If the roll is a 2, you gain 1 additional piety.
- If the roll is a 3, you gain 2 additional piety and can activate a domain effect of your choice.

Storm Prayer Effect

Each enemy in a 3-cube within 10 squares takes lightning damage equal to twice your Intuition score.

Trickery Prayer Effect

You slide one creature within 10 squares of you up to a number of squares equal to 5 + your conduit level.

- **Signature Class Abilities:** Holy Lash Staggering Curse
- **3 Cost Class Ability:** Violence Will Not Aid Thee
- **5 Cost Class Ability:** Faith is Our Armor
- **7 Cost Class Ability:** Soul Siphon

JUMPING

Whenever an effect allows you to move (including using the Advance move action), you can automatically long jump a number of squares up to your Might or Agility score (your choice; minimum 1 square) as part of that movement. The height of your jump is automatically 1 square as part of that movement.

If you want to jump even longer or higher than your baseline jump allows, make a Might or Agility test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You don't jump any farther than your baseline jump allows.
12-16	You jump 1 square longer and higher than your baseline jump allows.

A creature who has “climb” in their speed entry, or who gains the temporary ability to automatically climb, can climb across vertical and horizontal surfaces at full speed. Likewise, a creature who has “swim” in their speed entry, or who gains the temporary ability to automatically swim, can swim in liquid at full speed.

Creatures without those types of movement can still climb or swim when a rule allows them to move, but each square of climbing or swimming costs 2 squares of movement. If a surface is difficult to climb (for instance, a sheer cliff or ice-covered wall) or a liquid is hard to swim through (a raging river or whirlpool), the Director can call for a Might test. On a failure, a creature can't climb or swim but wastes no movement in the attempt. The Director can also impose other consequences to failure, such as being caught in the spinning current of a whirlpool.

Climbing other Creatures: You can attempt to climb a creature whose size is greater than yours. If the creature is willing, you can climb them without any trouble. If the creature is unwilling, you make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fail to climb the creature, and they can make a free strike against you.
12-16	You fail to climb the creature.
17+	You climb the creature.

While you climb or ride a creature, you gain an edge to melee abilities used against them. The creature can use a maneuver to attempt to knock you off, forcing you to make the following test:

Power Roll + Might or Agility:

Roll	Effect
≤11	You fall off the creature into an unoccupied adjacent space of your choice, taking falling damage and landing prone as usual.
12-16	You slide down the creature into an unoccupied adjacent space of your choice and don't land prone.
17+	You continue to hold on to the creature.

If you are knocked prone while climbing or riding a creature, you fall and land prone in an adjacent space of your choice, taking damage as usual from the fall.
