CLASS FEATURES

Sanctified Weapon

As a respite activity, you can bless a weapon. Any creature who wields the weapon gains a +1 bonus to rolled damage with abilities that use the weapon. This benefit lasts until you finish another respite.

Saint's Vigilance

You have honed your ability to detect sin and can use it to find those who hide from justice. Any creature judged by you can't use the Hide maneuver. Additionally, you gain an edge when searching for hidden creatures. If you find a hidden creature, you can use your Judgment ability against them as a free triggered action.

A Sense for Truth

You are trained in secret techniques from your order that allow you to discern the truth with supernatural precision. If a creature is of a lower level than you, you automatically know when they are lying, though you don't necessarily know the actual truth behind their lie. Additionally, you gain an edge on tests made to detect lies or hidden motives.

Look On My Work and Despair

Your judgment has grown in divine power, instilling fear in those you condemn. Whenever you use your Judgment ability, you can spend 1 wrath, and if the target has **P < AVERAGE**, they are frightened of you (save ends). Additionally, whenever a creature judged by you is reduced to 0 Stamina and you use Judgment as a free triggered action, if the new target has **P < STRONG**, they are frightened of you (save ends). If the target is already frightened of you, they instead take holy damage equal to twice your Presence score.

⚔ Judgment

Maneuver

You utter a prayer that outlines your foe in holy energy.

⚔ My Life for Yours

Triggered Action

You channel some of your vitality into more resilience for you or an ally.

⚔ Revelator

You channel holy energy to harm unbelievers and reveal those hidden from your judgment.

When a creature judged by you is reduced to 0 Stamina, you can use a free triggered action to use this ability against a new target.

Additionally, you can spend 1 wrath to take one of the following free triggered actions:

- When an adjacent creature judged by you starts to shift, you make a melee free strike against them and their speed becomes 0 until the end of the current turn, preventing them from shifting.
- When a creature judged by you within 10 squares makes a power roll, you cause them to take a bane on the roll.
- When a creature judged by you within 10 squares uses an ability with a potency that targets only one creature, the potency is reduced by 1 for that creature.

MANEUVERS

Any creature can take the following maneuvers, in addition to those listed in their stats:

- **Aid Attack:** Choose an adjacent enemy. The next ability power roll an ally makes against them before the start of your next turn has an edge.
- **Catch Breath:** Spend a Recovery.
- **Claw Dirt:** You use the Claw Dirt ability.
- **Escape Grab:** You use the Escape Grab ability while grabbed.
- **Grab:** You use the Grab ability.
- **Hide:** You become hidden from creatures who aren't observing you while you have cover or concealment from them.
- **Knockback:** You use the Knockback ability.
- **Make or Assist a Test:** Making or assisting a test is a maneuver in combat.
- **Search for Hidden Creatures:** Attempt to locate creatures hidden from you.
- **Stand Up:** You stand up from prone, ending that condition. Alternatively, you can use this maneuver to make an adjacent prone creature stand up.
- **Use Consumable:** Unless otherwise noted in its description, you can use this maneuver to activate a consumable treasure. A creature can use this maneuver to administer a consumable treasure that benefits the user either to themselves or a willing adjacent creature.

MOVEMENT

All squares adjacent to your character cost 1 movement to move into. No, there's no Pythagorean theorem on the grid. It's a game, don't overthink it.

Your hero can move freely through an ally's space. You can move through an enemy's space, but that space is difficult terrain. You can't stop moving in any other creature's space, including to make a strike or use a main action or maneuver while in that space and then continuing your move, unless that creature's size is two or more sizes greater or smaller than your own.

At the Director's discretion, you can be forced into the same space as another creature whose size is within 1 of yours, such as by falling down a narrow shaft with such a creature already at the bottom. When you are squeezed into the same space as another creature whose size is within 1 of yours, your ability rolls and tests take a bane.

Can't Exceed Speed: A single move or other effect can never allow a creature to move more squares than their speed, unless the effect states otherwise. For example, a creature with speed 5 might have that speed reduced to 2 by the slowed condition (see Conditions in Chapter 5: Classes). If an ally then targets them with an effect that allows them to move up to 3 squares, the creature can move only 2 squares because that's their current speed.

Can't Cut Corners: A creature can't move diagonally when doing so would involve passing through the corner of a wall or some other object that completely fills the corner between the creature's space and the space they are moving to. This rule applies only to moving past objects, not moving past other creatures.

SLAMMING INTO OBJECTS

When a creature force moves a target into a stationary object that is the target's size or larger and the object doesn't break (see below), the movement ends and the target takes 2 damage plus 1 damage for each square remaining in their forced movement.

If you force move a creature downward into an object that doesn't break (including the ground), they also take falling damage as if they had fallen the distance force moved and their Agility score was 0.

Hurling through objects: When you move a creature into a mundane object, the object can break depending on how many squares of forced movement remain. The cost of being slammed into an object is tied to the damage a target takes for being hurled through it:

- It costs 1 remaining square of forced movement to destroy 1 square of glass. The creature moved takes 3 damage.
- It costs 3 remaining squares of forced movement to destroy 1 square of wood. The creature moved takes 5 damage.
- It costs 6 remaining squares of forced movement to destroy 1 square of stone. The creature moved takes 8 damage.
- It costs 9 remaining squares of forced movement to destroy 1 square of metal. The creature moved takes 11 damage.

If any forced movement remains after the object is destroyed, you can continue to move the creature who destroyed the object.

TITLE

HELL'S SOLDIER

Hell's Soldier
