

ELIZA, THE DEMON CONSORT

“Wanna play?”

You were an inmate of Ms. Theremin’s Corrective School for Troubled Young Adults during “The Incident:” when a possessed kid finally popped, in the ensuing bloodbath you met face to face with a real demon.

When most people see a demon’s true form—teeth, claws, tentacles—they gibber with terror. Not you. You caught feelings. There’s just something about a demon’s selfishness, unpredictability, and penchant for senseless violence that just makes you go all gooey. Finally, someone who can truly understand you!

What you’re in for: Along with your demon partner, “*Loverboy*,” you turned a formerly high-fashion neighborhood of Capital into a ruin resembling the Abyssal Wasteland, sending forth demonspawn to terrorize innocents and bring you back lovely things.

Your plea: “Yeah, we did all the stuff you said. And when I get *Loverboy* back from wherever you banished him, we’ll do it again!”

De Caserta’s Notes: “She’s unpredictable, that’s for sure. But since the mission involves lots of chances for havoc and ruin, I think she’ll play along. It might also help if I bejewel her loyalty collar.”

Title: Come To Mama

“Ooh, I like you.”

Prerequisite: You summoned a demon without asking anything from them in return.

Effect: The first time each game session that you take something you want without paying for it, you gain a hero token. When you make a test to boast, flirt, or otherwise impress an NPC, you gain an extra edge on the roll.

Complication: Demon Lover

It’s so sad that those mean priests banished *Loverboy*! But you’ve found a way to game the system. You can temporarily banish yourself to the Abyssal Wasteland, causing *Loverboy* to take your place. Someday you’ll find a way to permanently bring him back so you can rule side by side!

You have the following ability.

Loverboy (5 Essence)

You explode into ravening, hungry flesh as you channel your demon.

Magic	Maneuver
Self	Self

Effect: You vanish along with any minions and fixtures you have summoned. A demon appears in your place (*Loverboy*, a demon muceron). *Loverboy* is under your control and can spend your essence as if it were malice. *Loverboy* vanishes after 1 minute, when he is reduced to 0 Stamina, or when he uses a free maneuver to do so; when he vanishes, you reappear in the space he vacated and your minions and fixtures reappear within 10 spaces of you.
