

SOLIS, THE PRO ASSASSIN

"They say the dead tell no tales, but I'm not here to tell tales."

When Duke Maximo of House Valetta was assassinated, there was collateral damage: his young bodyguard, Solis, was also killed. And when Duchess Lenore opened the Codex Mortis and spoke the Words of Return, the Duke didn't come back to life—but you did. You may have failed at your mission to protect the Duke, but you're determined to avenge him.

What you're in for: One by one, you assassinated the people involved with the Duke's killing. No one could catch you or make any charges stick. So they framed you for a murder you didn't commit and threw you in the Cauldron. You've already come back from death, and you'll come back from the Cauldron too.

Your plea: "The witnesses stated that I was seen at the scene of the crime. They lied. Your Lordships, I am never seen at the scene of the crime."

De Caserta's Notes: "I'm confident I can control every member of this team—except perhaps Solis. But we need her targeted brutality."

Title: Hidden Justice

"I'll be seeing you."

Prerequisite: You have been raised from the dead by Duchess Lenore.

Effect: The first time each game session that you hide from or sneak by an NPC, you gain a hero token. When you make a test to hide or sneak, you gain an extra edge on the roll.

Complication: Highly Flammable.

Fire can burn your dry bones, but no flame burns hotter than the rage within you. When you take fire damage, you catch on fire. You remain on fire for 1 minute or until you or another creature spends a maneuver to extinguish you.

You take no extra damage from being on fire in this way. While you are on fire, you gain the following effects:

- At the start of each of your turns you gain temporary Stamina equal to 5 + your level.
- A creature takes 5 damage when it damages you with a melee Strike.
- You shed light for 5 squares and you can't sneak or hide.

Learn From a Master Downtime Training (Hone Ability): Soul Burn range increased to 12 squares (learned by studying one of your victims, an enemy talent)
